Student Leadership

The Student Leadership team at GSA have had another brilliant term, with so many students involved in various areas across the Academy. The Student Union Presidents and the Head Team have continued to meet with Mr. Price on a monthly basis to discuss any ideas/concerns, and this time is valued greatly, with many points being reviewed and worked on to ensure excellent communication between staff and students is upheld.

The leadership in Post 16 is developing every day, and all students involved are brilliant role models. The SU have continued to work tirelessly, meeting weekly to work on various projects. They have run an extremely successful 'wobble week' this term whereby the week was dedicated to ensuring students were able to take part in activities to reduce stress surrounding exams. They are also a fantastic help at all Academy events and are very motivated to implement new ideas.

The House Captains have further had a very successful term. They have delivered their first house assembly on teamwork, which engaged all students and staff, and have worked hard to increase participation at inter-house competitions, which have included Trampolining, Dodgeball and an English poetry competition this term.

Student Voice

The student voice has been particularly strong this term, with students offering some fantastic viewpoints. Year 7 in-particular have been the forefront of new, innovative ideas and are looking to implement them in the coming terms. Year 8 have made some fantastic progress in creating a new logo design and slogan for our canteen and are working very hard to collate final ideas before presenting the proposal, they have also been working with some members of the Student Union in Post 16 to look at other artwork that could be displayed in the canteen.

Year 9 have been a continued presence around the Academy, sharing their first aid knowledge learnt in the previous term. They will continue their remainder of primary school sessions over the next year and are planning sessions to deliver to others in the Academy. Year 10, alongside student voice have been helping construct some ideas of an environmental project that they would like to lead for the Academy, again, working with members of the Student Union.

The year 11 prefect team have also gained the RLSS Life Support qualification this term. They all engaged brilliantly with the course, and have shown great enthusiasm in sharing their first aid knowledge with the rest of their year group and other students and staff.

Three Year 9 students also conducted an excellent interview with Mr. and Mrs. Murray (founders of Ormiston Trust) this term, whereby they were able to ask personalised questions and gain a real insight into the views of why they started the trust, and how they have developed their careers. The full interview has been published and can be found here:

The student leadership team are still working hard remotely to plan ideas for the return to the Academy and how they can carry out various leadership tasks from home.
