

15th November, 2020

Dear Parents/Carers

I am writing to provide an update following information that a member of staff in the academy has tested positive for Covid-19, after coming into contact with a positive case outside of school.

As always, we have been in close consultation with Public Health England and the member of staff is now self-isolating along with any close contacts they may have.

Given the robust safety measures we have in place at the school including comprehensive contact tracing, we have been able to respond immediately. Our swift and organised response has once again been praised by Public Health England.

The school is safe to remain open as a result of the various stringent safety measures we have in place. Our absolute priority continues to be the health, safety and wellbeing of our whole school community and we will carry on working closely with Public Health England to ensure we are continuing to take all the necessary precautions.

It is more important than ever that students, staff and the wider community remain vigilant and continue to uphold the various safety precautions both within school, and when out in the wider community.

We would ask all families to inform us as soon as possible if they are contacted via track and trace in relation to activities taking place outside of the academy.

Thank you again for your ongoing support and understanding, it is very much appreciated during these challenging times.

Yours sincerely,

Adrian Price
Principal
