Re: School snow closure 25th January

Dear Parents/ Carers

I have continued to keep an eye on the weather and have decided that, because of the recent and expected snowfall with freezing overnight temperatures, we will have to close George Salter Academy for ALL students tomorrow. I feel that it will not be safe for staff and students to travel to the academy in these conditions.

Staff will endeavour to set remote learning 'as normal'. Those staff who work from school because of connectivity issues may struggle with some elements of live learning tomorrow but work will be set.

LFT Testing for students due in school will move to Tuesday.

I have taken this decision early in order to allow for contingency arrangements to be made. It is not a decision that I have taken lightly.

I would ask that students, staff and parents enjoy the snow but take care.

Thank you for your understanding and support.

Take care and stay safe

Adrian Price
Principal
