

Hello students,

I am really excited that you will soon be joining our GSA family. My name is Mrs Payton and I am the Progress Leader for year 7. My job is to monitor and track your academic progress throughout the year, offering lots of guidance and support. I will regularly be updated by your teachers and drop into your lessons to see how you are getting on.

Miss Robinson will be your Student Welfare Manager for year 7. She will be responsible for your overall welfare and will always be on hand to help you every day.

We will definitely get to know you when you start at George Salter, however as well as your 'All About Me' work that you are completing through your primary schools, I have also put together a few tasks and questions which you can find on the transition area of our website. If you would like to complete some of these, it will not only help us, but it will make sure you have a bit of a head start for when we are ready to welcome you to the Academy, when things return to normal.

Please stay safe and see you all soon!

Kind regards,

Mrs Payton.
