

			Lesson Focus	Homework	Assessment
Autumn 1	05.09.22	Week 1	Economic: Global variations in development and impact on quality of life	Revision for knowledge test	
	12.09.22	Week 2	Economic: Development indicators	Revision for knowledge test	
	19.09.22	Week 3	Economic: Demographic Transition Model, population pyramids and development	DTM exercise	<b>6 or 9 mark question</b>
	26.09.22	Week 4	Economic: Causes and consequences of uneven development	Revision for knowledge test	
	03.10.22	Week 5	Economic: Tourism in Jamaica	Revision for knowledge test	<b>4 marker</b>
	10.10.22	Week 6	Economic: Nigeria: Importance of location of Nigeria and industrial structure changing industrial structure and TNC	Revision on key facts for Nigeria	
	17.10.22	Week 7	Economic: the impact of aid on Nigeria	Resource based question	
Autumn 2	31.10.22	Week 8	Economic: the structure of the UK economy and how it is changing – How is the UK economy post-industrial	UK's global position	
	07.11.22	Week 9	Economic: Growth and decline of rural populations. The North South divide	UK in the Commonwealth	
	14.11.22	Week 10	Economic: The north south divide and the impact of transport strategies	Revision for end of unit assessment	
	21.11.22	Week 11	Economic: The north south divide and the impact of transport strategies	Revision	9 marker
	28.11.22	Week 12	<b>Economic: The UK in the wider world. Assessment and DIRT Qu2 2019 paper</b>		
	05.12.22	Week 13	Mock exam		
	12.12.22	Week 14	Hazards: What are hazards? How do plate tectonics work?		6 marker
Spring 1	02.01.23	Week 15	Hazards: Distribution of earthquakes and volcanoes, different types of plate boundary and the link to earthquakes and volcanoes.	<b>Revision</b>	
	09.01.23	Week 16	Hazards: What is an earthquake? Haiti case study – cause, effects, response		Developing a model answer
	16.01.23	Week 17	Hazards: Christchurch case study – cause, effect, response		
	23.01.23	Week 18	Hazards: Global atmospheric circulation model. Global distribution of tropical storms		
	30.01.23	Week 19	Hazards: Typhoon Haiyan case study – Causes, effects, responses		<b>9 marker</b>
	06.02.23	Week 20	Hazards: UK affected by a range of weather hazards – example of extreme weather in the UK – Somerset Levels		
	13.02.23	Week 21	Hazards: Evidence, causes and effects of climate change. Managing climate change – mitigation and adaptation		6 marker
Spring 2	27.02.23	Week 22	Hazards: end of unit assessment		
	06.03.23	Week 23	Global resource management: Global demand for water, water insecurity and conflict		
	13.03.23	Week 24	Global resource management: Increasing the supply of water an NEE example of water management: The Wakal River basin	Revision for knowledge test	<b>Map interpretation question</b>
	20.03.23	Week 24	Global resource management: Water in the UK: The changing demand and supply, water stress, the need for a transfer scheme	How can water supply be increased	<b>6 marker</b>
	27.03.23	Week 26	Global resource management: Food in the UK: Increasing demand, food miles, solutions – agri business		<b>6 marker – the question built</b>

	17.04.23	Week 27	Global resource management: UK energy, changing mix, growth of renewables, economic and environmental issues		
	24.04.23	Week 28	2019 paper 2 questions 3 and 5	Energy – data manipulation	
	01.05.23	Week 29	Preparation for pre-release	Revision for final assessment	
	08.05.23	Week 30	Revision		
	15.05.23	Week 31	Revision		
	22.05.23	Week 32	Revision		
Summer 2	05.06.23	Week 33			
	12.06.23	Week 34			
	19.06.23	Week 35			
	26.06.23	Week 36			
	03.07.23	Week 37			
	10.07.23	Week 38			
	17.07.23	Week 39			

## Skills audit

	Atlas maps	OS maps	Maps alongside photos/ use of sources	Enquiry process	Graphical skills	Numerical and statistical skills	Types of question
Ecosystems	Using maps for location		Labelling and annotating photographs		Food chains and food webs. Plotting climate graphs	Interpreting climate graphs	
urban		Use of OS maps to examine site advantages.	Interpretation and annotation of aerial photos.		Use of line graphs for continuous data. Pie charts. When to use different types of graph		Application questions using data sources. Putting together a 9 marker using the BUG method.

UK Physical		Coastal landforms mapwork 2018. Contours	Interpretation of different landforms		Hydrographs		
Economic	Interpreting global distribution maps and use of GCSE	OS map and aerial photo interpretation	Describing and annotating pictures. Interpreting cartoons. Application of multiplier effect diagram. Photo based question. Use of line graphs to show changes through time		Use of scatter graph question. Interpreting specialist graphs – population pyramids and the DTM. Interpreting bar graphs.		Data based question. 6 mark and 9 mark questions.
Hazards		Map interpretation – describing distribution				Intensity and frequency work	Short answer questions. 4, 6, 9 mark answers
Global resource management		Interpretation of different types of map			Interpretation of different types of graph	Energy data and graphing sheet.
