LEXONIK

Literacy intervention programmes that empower students and their learning...

Through our strategic teaching approach, students develop essential literacy skills that improve reading ages by an average of 27 months in just six weeks...

LEXONIK   
**Leap**

# Lexonik Leap

- »»» What is it? A targeted, diagnostic driven phonics intervention.
- »»» Why do students need it? To equip students with basic literacy skills needed to access the curriculum.
- »»» How long? Students' pathway through Leap is bespoke and tailored to gaps in their knowledge. Delivered little and often, students make rapid progress through the programme.

LEXONIK 

# Advance

# Lexonik Advance

What is it? A unique, research-based programme leveraging metacognition, repetition, decoding and automaticity, training learners to make links between common morphemes.

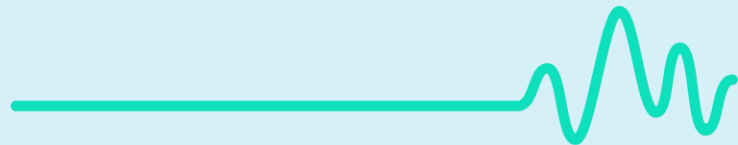

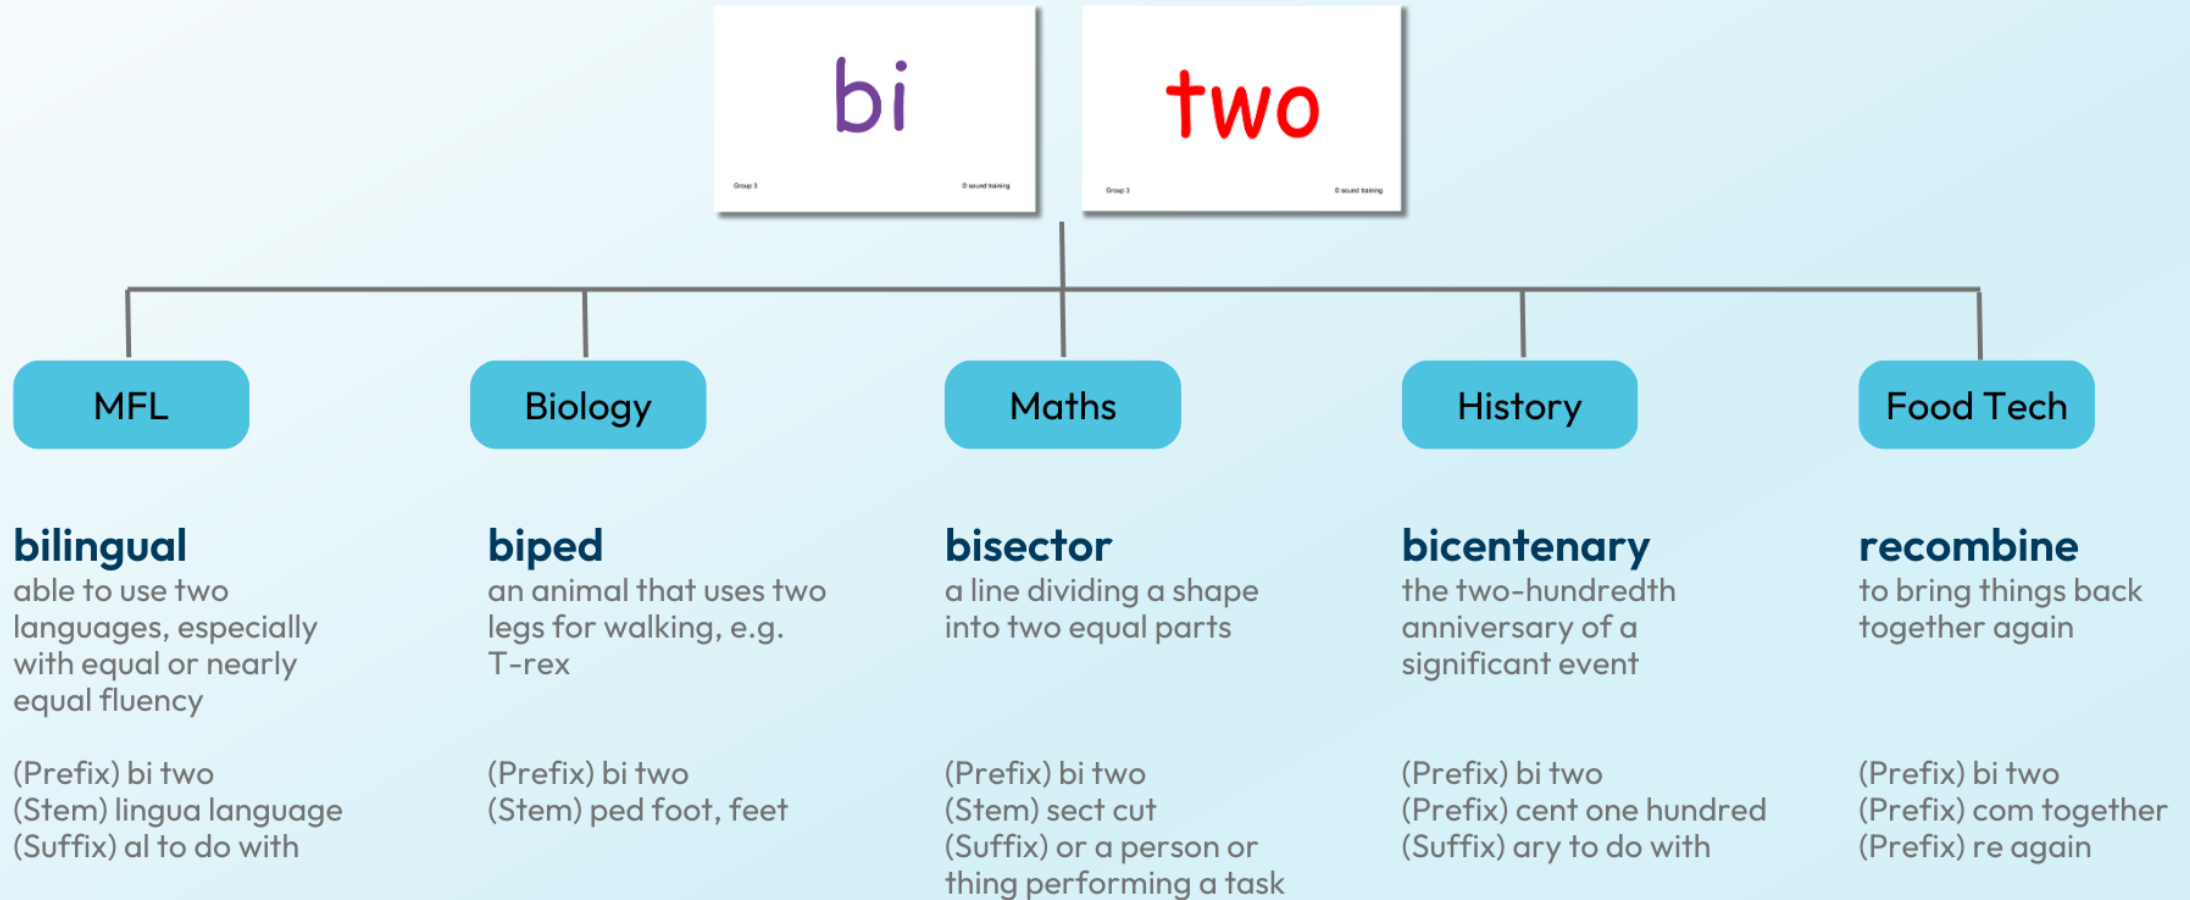

Why do students need it? Advance rapidly improves reading, spelling, vocabulary and comprehension with average reading age gains of 27 months in just six one hour sessions.

How long? One hour a week for six weeks.

# A cross-curricular approach – consolidating knowledge to use in all subjects

What does it mean?  
How do you know?
